

HOUSE OF TROY

Illuminate your life with House of Troy

Supplement

HOUSE OF TROY

Celebrating over 75 years

Tucked into the northern Vermont hills, just down the road from the picturesque ski village of Stowe, House of Troy has been producing classic lighting since 1947. Though off the beaten path and far from the spotlights of the big cities, our reputation burns brightly. House of Troy is proud to offer lighting known for its craftsmanship and quality.

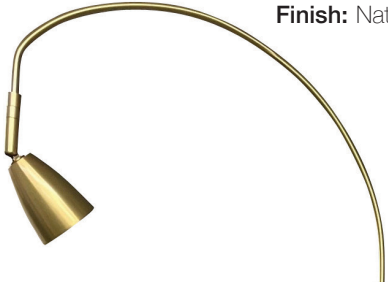

We began as metal workers, making products to illuminate fine art work. Over the years we expanded our line to include floor lamps, table lamps and wall lamps. We design our products around a light source creating fine task lamps which suit a need.

In 2013 we purchased Scatchard Stoneware and opened our pottery in Hyde Park, Vermont. Using a high fire reduction process and proprietary glazes, we now offer decorative lamps with beautiful deep finishes that will stand the test of time.

Advent Arch PICTURE LIGHT

Questions & Answers

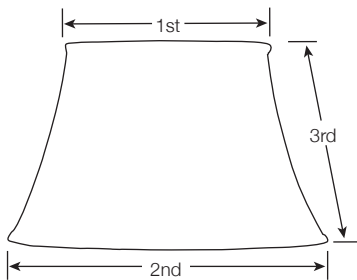

The following are answers to some of the most frequently asked questions about our products which should assist with your selection process.

Q. How do you measure the extension of a swing arm?

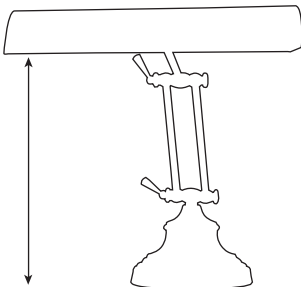

Q. How are lamp shades dimensioned in the catalog?

A. Top x Bottom x Side (slant).

Q. How do you measure the height of a Desk/Piano Lamp?

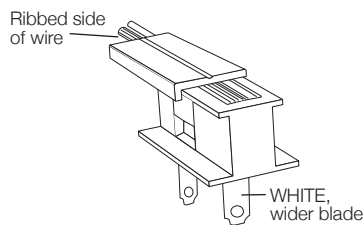

Q. What size picture light should I use?

A. Measure the width of the image and use a Classic picture light approximately one half the size, or a Slim-Line picture light approximately two thirds the size of the image.

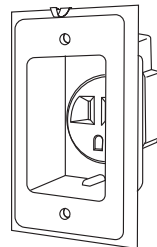

Q. Can I modify a cord length and add a polarized plug?

A. Yes. We offer a UL approved snap-on-plug that can be attached to any standard UL approved SPT-2 cord. Instructions are included with plug.

Q. Is there a way to eliminate seeing the cord?

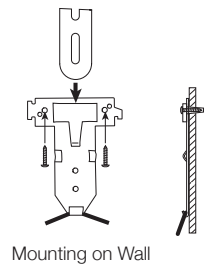

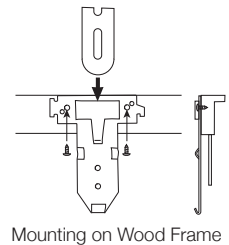

- Install a recessed outlet (sometimes called a "clock outlet") behind the artwork.

- Use a Cord Cover.
- Paint the cord to match the wall color.
- Place furniture, plants or other décor to hide cord.

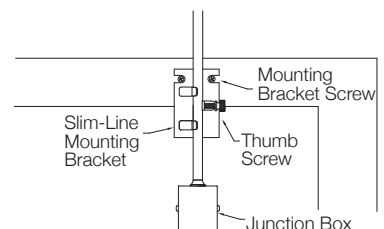

Q. How do you install a traditional style picture light?

A. All House of Troy picture lights come with mounting hardware and may be attached to either the picture frame or the wall. The only tools necessary are a screw driver and something to start a screw-hole, such as a small nail or awl. (Bracket size 2½" x 3")

Q. How do you install a Slim-Line Picture Light?

A. Snap the Picture Light arms into the Mounting Brackets. This will take a bit of force, but will not damage the arms. Slide the arms up or down to attain the desired shade location in relation to the frame. (Bracket size 1½" x 2¼")
